List of Materials/Components:

Sample No.	Color	Material/Component description
1	BLACK	SBR RUBBER

Remark for chemical test :

* = Exceed the Limit

= The test result is over the recommended action limit (i.e. 80% of the client's requirement) of 2 / 3 composite mix. As the test result is based on the composite sample and falls into an uncertain range, where "Pass" or "Fail" cannot be truly defined, an "Inconclusive" is given since the composite sample may possibility fail according to the regulatory limit. It is highly recommended to conduct individual tests for the exact content of result in each individual component.

^ = Conclusion is made based on the composite sample. Individual testing is recommended as to understand the exact content of result in each individual component.

Δ = Test done on dried paint sample

TEST RESULT:

Alkylphenols (AP) & Alkylphenol Ethoxylates (APEO)

Test Method: In-house method- Solvent extraction, GC-MS & LC-MS analysis.
